PROFILE

I am a dedicated Software Developer with nearly a year of hands-on experience in backend web development. I specialize in developing secure, scalable applications using the MERN stack and Next.js. I have strong problem-solving skills and a good understanding of improving system efficiency.

I have experience with API integration, authentication systems, and data scraping. I am committed to continuous learning and professional growth, and I am eager to collaborate with a dynamic team. I am passionate about tackling new challenges in a stimulating environment.

PROFESSIONAL EXPERIENCE

Software Developer

02/2024 – 07/2024

Anteriores Solutions 

Demonstrated skills in backend development, significantly contributing to the successful launch and operation of a car auction betting platform.

- Created the authentication system using NextAuth with MongoDB Adapter.
- Developed the wager feature for both single auctions and tournaments, managing transaction history, updating user wallets, and handling refunds. Ensured the accuracy and reliability of all financial transactions and user balances.
- Helped create a separate admin panel, providing robust tools for managing auctions and user activities.
- Implemented the withdraw feature, allowing users to submit their withdrawal amount and bank details, which raises a ticket in the admin panel for processing.

Software Developer Internship

10/2023 – 01/2024

Anteriores Solutions 

Developed a scraper to gather auction details from a partnered car auction company, ensuring accurate and timely data integration.

SKILLS

- Languages: JavaScript/TypeScript, PHP, Go
- Frameworks: Next.js, React.js, Express.js, Laravel
- Databases: MongoDB, PostgreSQL
- Others: Node.js, Web Scraping, HTML & CSS, TailwindCSS
